

PUC Chapter 313 – Customer Net Energy Billing Agreement Application

This Application is considered complete when it provides all applicable and correct information required below. Additional information to evaluate the Application may be required.

Net Metering Customer

Account Name: _____
 Mailing Address: _____
 City, State, Zip Code: _____
 Telephone: _____
 E-mail Address: _____
 Facility Account No.: _____
 Facility Service Address: _____
 Facility Size: DC or AC kW (circle one): _____
 Facility Fuel Type: _____

Ownership

Single Ownership: _____ Single Ownership Multi-Account: _____ Joint Ownership: _____
 (check only one)

1. Single Ownership: Please sign at the bottom of the application and submit as requested.
2. Single Ownership Multi-account Allocation

Allocation Type: Cascading: _____ or Percentage Allocation: _____ (check only one)

List accounts below in which excess energy will be allocated. If Cascading is chosen above then no allocation % need to be identified. Please list the order in which you wish credits to be applied (the facility account must be listed first). If Percentage Allocation is chosen the sum of the percentages must equal 100%. With either option all account names need to be in the same name prior to the In Service date of the facility.

Account Number/Allocation %	Account Number/Allocation %
1. _____	6. _____
2. _____	7. _____
3. _____	8. _____
4. _____	9. _____
5. _____	10. _____

3. Joint Ownership: If joint ownership is selected above please fill in the following section and attach the required additional information required.

Primary Contact

Name: _____
 Address: _____

 Telephone: _____
 Email: _____

Additional information needed.

- Provide documentation that each shared ownership customers have a valid ownership interest in the shared ownership facility.
- Provide a list of owner names, account numbers and percentage allocations.

CENTRAL MAINE POWER

Renewable Energy Credit (REC) Aggregation Option

Eligible customer having a Facility that qualifies under section 3C and 4A of Chapter 313 may participate in the renewable energy credit (REC) aggregation option program. Please indicate is if you wish to participate. Yes or No (circle one)

Customer Net Energy Billing Customer Signature

I hereby certify that, to the best of my knowledge, the information provided in this Application is true. I agree to abide by the terms and conditions for a facility no larger than 660 kW_{AC}, when the Small Generating Facility has been installed and have met all of the qualification requirements of Chapter 313.

Signed: _____

Title: _____ Date: _____

Additional Requirement

- At the conclusion of the installation process a Certificate of Completion must be completed and received by Central Maine Power. Receipt by Central Maine Power will determine the transmission and distribution credit pertaining to the Customer Net Energy Billing Agreement. This form can be found with the Chapter 324 Forms and Agreements at cmpco.com under Your Account\Small Generator Interconnection Process.
- If the facility being installed is a non-grandfathered system, accompanying the Certificate of Completion the electrician responsible for the installation and associated wiring of the facility must include a one line diagram that illustrates the system that has been installed and the total DC loads and the total loads on the critical load panel. A copy of CMP's "Guidelines for NEB One Line Diagrams" can be provided upon request.

Please return Net Metering Application to the address listed below. If it is more convenient you may email the application to ppaadmin@cmpco.com or fax to (207) 629-2193. Any question please call either Michael Erskine at (207) 629-2181 or Diana Morgan at (207) 629-2183.
