

RATE AL
AREA LIGHTING SERVICE

AVAILABILITY

This rate is available for area lighting service furnished on a dusk-to-dawn basis. The Company will furnish, install and maintain area lights in new locations as may be requested in writing for area lighting service, subject to the TERM OF SERVICE specified below.

TERM OF SERVICE

The term of service under this schedule shall be by service agreement for a period of fifteen (15) years and on a continuing basis thereafter. Requests for additions, changes or removals for area lighting service may require 90 days' advance written notice.

BASIC RATE PER MONTH

1. Full Service Lighting (Fixtures, Delivery Service and Maintenance)

Full Service Lighting is defined as service: 1) with aerial feed requiring not more than one section extension of wire and with Company-standard luminaires, lamps, and brackets not over 6 feet in length, on distribution system poles in use by the Company for other purposes, on other poles provided and owned by the Company at the request of the customer, or on poles acceptable to the Company and supplied by the customer; or 2) with customer-owned underground systems in accordance with Special Conditions, Item 4 of this rate schedule.

d. Maintenance

Maintenance for Full Service Lighting will be provided as follows:

Notice of Outages:

If any light fails to operate, the Company will repair or replace it, at its option, within a reasonable time after the customer gives the Company notice of the light failure.

Company-Owned Lamps and Fixtures:

The Company will repair or replace any part of a lamp or fixture that fails due to normal wear and tear during its life at no cost to the customer.

If lamp/fixture failure is due to reasons other than normal wear and tear, the Company will repair or replace any part of a lamp or fixture and may charge material, labor, and expense costs for repairs. The Company will install a vandalism-protection shield for any fixture at the customer's request and will charge the customer for all material, labor and expense costs associated therewith.

Other Lighting Options:

Repairs to Other Lighting options will be made as soon as possible, allowing for lead time required to order parts from the manufacturer, since the Company will not inventory replacement fixtures, poles, or any other parts for Metal Halide and Decorative Lighting.

2. Airport Beacon Lighting

Airport Beacon Lighting is defined as service to unmetered, customer-owned lighting for airports operated by non-governmental entities. Pricing for Airport Beacon Lighting will be as follows:

\$.21 per kWh of usage. The Company will use operating hours, wattage of lamps, and numbers of lamps, provided by the customer, to derive kWh usage per month.

The customer will notify the Company in writing of any changes to wattage and operating hours. The Company reserves the right to verify operating hours, wattage of lamps, and numbers of lamps by whatever means the Company deems appropriate.

TRANSMISSION CHARGE

The transmission charges in accordance with Subsection 44.1 of the Terms & Conditions are included in the above rates.

3. Other Special Facilities

The monthly charge for special facilities other than those listed in Special Conditions above will be based on the actual cost of the specific equipment installed and billed under the provisions of Section 13 of the Terms & Conditions. The installation of other than Company-standard special facilities is subject to prior approval by the Company.

4. Underground Service

Underground service for area lighting will be supplied, subject to Company approval, only in commercial developments and in conjunction with underground residential distribution in housing developments and mobile home parks. The Company however, will serve customer-owned underground installations conforming to Company specifications, and will provide luminaires and brackets on customer-owned poles at regular monthly rates.

Underground area lighting service provided by the Company also is subject to:

- a. The requirements of a fifteen (15) year contract.
- b. The customer providing at his expense, all necessary excavating and backfilling, all necessary duct lines and conduit for all necessary maintenance and repairs.
- c. Contribution by the customer of the initial cost of the length of underground feed in excess of 125 feet per light per circuit, measured from the base of the pole (excluding length of run up the pole and through the bracket). The Company will own the entire length of underground feed, including the excess over 125 feet.
- d. The Company will furnish, own and maintain standard distribution-type poles or other standard poles as designated by the Company for area lighting with underground feed. Any such poles furnished by the Company strictly for area lighting will be subject to special facilities charges. The customer must furnish, own and maintain any desired poles other than the standard types offered by the Company, subject to approval by the Company.

5. Extensions Outside of Regular Distribution System

Where the circuits for area lighting extend outside the regular secondary distribution system, the Company will furnish and install secondary conductors and standard distribution-type poles (whether or not luminaires are attached) for the sole purpose of providing area lighting service, subject to special facilities charges. These circuits are limited to secondary voltage; extensions of primary circuits are not available under this provision.

All ledge work and initial clearing of right-of-way must be performed by or at the expense of the customer.

6. Relocation of Facilities

When a customer requests a relocation in existing area lighting equipment that has not reached the end of its normal useful life, the customer may be required to pay for any relocation costs of the equipment.

7. Removal of Facilities

When a customer requests the discontinuation of the use of area lighting equipment before the end of its useful fifteen (15) year life, the customer will be required to pay the unused investment and removal and disposal costs of the equipment in accordance with the following terms:

- a. Purchasing electric energy for area lighting service from a supplier other than the Company or its affiliates, when a customer taking service under this rate schedule can choose electric energy suppliers, does not constitute a discontinuation of the use of area lighting equipment.
- b. All incandescent and mercury luminaires will be treated as fully depreciated and will be removed and disposed of without cost to the customer.
- c. The undepreciated investment of Mercury, Sodium and Metal Halide luminaires will be based on the initial date of installation of the luminaire type at that location. Luminaire replacements due to maintenance will not be considered in determining the undepreciated investment.
- d. The removal and disposal costs will be payable at the time facilities are removed and will be actual costs incurred by the company.
- e. The net unrecovered investment (balance) will be the undepreciated investment less salvage value and may be paid either in full at the time the facilities are removed or paid in equal monthly installments at the customer's option, subject to the following:
 - i. An annual interest rate equal to the latest allowed cost of capital, adjusted for income tax effects, will be applied to the balance to determine the interest component.
 - ii. The balance and interest component will be billed and payable (amortized) monthly over a period not to exceed three (3) years.
 - iii. The total monthly payment including balance and interest will be calculated according to the actuarial method resulting in equal monthly payments.
 - iv. Interest shall cease to accrue on prepayment of balance in full.

8. Attachments to Poles in Use for Area Lighting Only

- a. Telephone and/or CATV Attachments

When a telephone or CATV company makes an attachment to poles in use for area lighting purposes only, for which special facilities charges are being made, the Company will give the customer a credit for the equivalent monthly rental paid by the telephone and/or CATV company. This credit shall not exceed the special facilities charges for the poles (and associated guys) involved.

- b. Attachments by the Company

When the Company makes an attachment (primary or secondary line, transformer, service drop, etc.) to poles in use for area lighting purposes only, for which special facilities charges are being made, the customer will no longer be required to pay special facilities charges on those distribution system poles (and associated guys) to which attachments were made. This policy will have no effect on special facilities charges being made for area lighting equipment other than poles (and associated guys).
