

RATE A-LM
RESIDENTIAL LOAD MANAGEMENT SERVICE

AVAILABILITY

This rate is available only to customers with thermal energy storage devices and/or thermal storage heating systems integrated with resistance electric heating units that can be removed from the line for up to 14 hours each day. The 14 hours may but need not be continuous. Devices that do not store thermal energy and thus would be adversely affected by periodic interruption will not be served under this rate.

CHARACTER OF SERVICE

End use service will be single phase, alternating current, 60 hertz, at one standard secondary distribution voltage as described in the Company's Handbook of Requirements for Electric Service and Meter Installations and through one point of delivery. Service will be available under this rate for at least 10 hours out of every 24-hour day.

BASIC RATE PER MONTH

Service Charge	\$9.13
kWh Charge	\$0.010574/kWh

TRANSMISSION CHARGE

The transmission charges in accordance with Subsection 44.1 of the Terms & Conditions are included in the above rates.

CONSERVATION ASSESSMENT CHARGE

The conservation assessment charges in accordance with Subsection 49.1 of the Terms & Conditions are included in the above rates.

Effective Date: For service rendered on
and after July 1, 2009

Docket Nos. 2009-071 & 2009-090

Vice President–Controller, Treasurer & Clerk

RATE A-LM
RESIDENTIAL LOAD MANAGEMENT SERVICE

SHORT-TERM SERVICE CHARGE

Customers who take short-term service will be billed for the first three months, or fraction thereof, \$27.39 per month in addition to the regular monthly electric delivery service rate (including the monthly minimum charge).

A credit equal to one-ninth of the amount of short-term service charges billed during the first three months of short-term service will be applied to a short-term customer's bill for each month, or fraction thereof, that the short-term customer's term of service exceeds three months. In no case will the total amount of such credits exceed the total amount of short-term service charges billed.

When seasonal service customers take service for less than twelve consecutive months, they will be considered to be short-term customers and their final bills will be adjusted to include any unbilled short-term service charges and credits.

REQUIREMENTS FOR SERVICE

1. All thermal energy storage devices or systems will be controlled so that no electricity will be used except during the ten hours out of every 24-hour day that service is made available.
2. Central Maine Power Company reserves the right to inspect all thermal energy storage equipment.
3. Failure to abide by these requirements will result in denial of this load management rate. The rate may be reinstated only after an inspection has determined that the customer's installation complies with these requirements.

MINIMUM CHARGE

\$9.13 per month, plus any charges due for short-term service.

Effective Date: For service rendered on
and after July 1, 2009
