

Steps for New Temporary Electric Service Installation

Service cable only — this is the line from the last pole to your building.

No line construction needed — no additional poles need to be set.

This checklist will help you make sure that the necessary paperwork reaches CMP and your job stays on track!

Temporary service will be installed in instances where permanent structures will not be available, such as construction trailers, road projects or service for contractors for construction purposes.

- | | Complete |
|--|--------------------------|
| <p>1. Call CMP at 1-800-750-4000 (residential) or 1-800-565-3181 (commercial/industrial) to establish your temporary service.</p> <p style="margin-left: 40px;">My new CMP account number: _____</p> | <input type="checkbox"/> |
| <p>2. Review Pricing Fact Sheet.</p> <ul style="list-style-type: none">• Temporary service charge | <input type="checkbox"/> |
| <p>3. Complete and return the following service forms to your local CMP Service Center.</p> <ul style="list-style-type: none">I. Certification of Compliance with Subdivision and Shoreland Zoning Form 1190 (signed by town)II. Electrical Inspection/Permit (one of A or B below is required):<ul style="list-style-type: none">A. Municipal Inspection (completed by Municipal Inspector)B. State Electrical Permit (completed by electrician)C. LURC (Land Use Regulation Commission) permit number - unorganized towns | <input type="checkbox"/> |
| <p>4. Service enclosure inspection. Once all items listed in step 3 have been returned to CMP and your electrician has completed installing the metering equipment, you or your electrician must call CMP to inspect the service enclosure. We will need access to the main breaker. Once the service enclosure passes inspection, we'll install the meter and send you a date that we will connect your service – and, we'll guarantee it.</p> | <input type="checkbox"/> |

Your service is energized. Congratulations!
We look forward to meeting your electricity delivery needs.
