²The amount you choose will be added to your electric bill each month and is in addition to your existing electric service. You may cancel at any time without penalty. If you do not select an option on your returned form, your enrollment will not be processed.

*Thinking of replacing your water heater?
You could save more than \$500 per year in electricity.**

\$950 MAIL-IN | \$950 INSTANT REBATE | or DISCOUNT

**ON ENERGY STAR®-CERTIFIED
HEAT PUMP WATER HEATERS**

START SAVING WITH A HEAT PUMP WATER HEATER

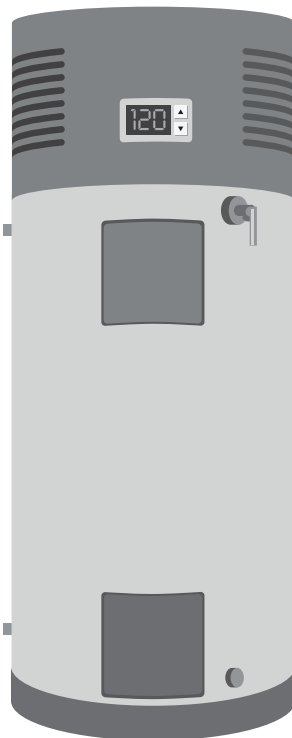

If your electric water heater is more than 10 years old or is leaking, it may be time to consider replacing it with an efficient heat pump water heater.

Tens of thousands of Mainers own heat pump water heaters. They're popular because they produce lots of hot water, help dehumidify, and can save more than \$500 per year compared to a conventional electric water heater.*

Efficiency Maine is offering a choice of a **\$950 instant discount** or a **\$950 mail-in rebate** on heat pump water heaters. These incentives can make heat pump water heaters less expensive to buy than traditional electric water heaters.

To learn more about these popular water heaters and available incentives, or to find the best prices in Maine or an installer near you, visit **efficiencymaine.com** or call **866.376.2463**.

* Compared to a traditional electric water heater as shown on Efficiency Maine's Compare Water Heating Costs calculator as of 2/28/2025. Your results may differ.
