

RATE LGS-P-TOU
LARGE GENERAL SERVICE - PRIMARY - TIME-OF-USE

AVAILABILITY

This rate is available for all general service purposes where service is taken at a primary voltage and where the customer's maximum monthly measured demand during an on-peak period exceeds 1,000 kW. Electric delivery service must be taken on a continuous year-round basis by any one customer at a single service location where the entire requirements for electric delivery service at the premises are supplied at one point of delivery. Short-term service is not available under this rate.

Any customer taking service under this rate whose maximum measured demand during an on-peak period has not exceeded 1,000 kW in each of the preceding twelve consecutive months shall be automatically transferred to the applicable Intermediate General Service rate for primary service, effective with the next succeeding billing month.

CHARACTER OF SERVICE

Service will be single or three phase, alternating current, 60 hertz, delivered over a distribution circuit, at one standard available primary voltage between and including 4 kV and 34.5 kV.

DEMAND

The monthly demand for each period, on-peak or shoulder, shall be the highest 15-minute integrated kW demand registered in each period during the month as determined by the Company.

The reactive demand shall be the highest 15-minute integrated kVar demand registered in any on-peak period during the month.

Effective Date: For service rendered on
and after September 1, 2000

Docket No.: 99-185

General Counsel

RATE LGS-P-TOU
LARGE GENERAL SERVICE - PRIMARY - TIME-OF-USE

BASIC RATE PER MONTH

	<u>Billing Months July and August</u>	<u>Billing Months September - June</u>
Service Charge	\$778.45	\$778.45
Demand Charge		
On-Peak	\$18.01 /kW	\$17.41 /kW
Shoulder	\$3.59 /kW	\$2.99 /kW
kWh Charge		
On-Peak	(\$0.001809)/kWh	(\$0.001809)/kWh
Shoulder	(\$0.001809)/kWh	(\$0.001809)/kWh
Off-Peak	(\$0.001809)/kWh	(\$0.001809)/kWh

The daily periods for weekdays (Monday through Friday, excluding holidays) shall be as follows:

On-Peak:	7:00 a.m. to 12:00 p.m. and 4:00 p.m. to 8:00 p.m.
Shoulder:	12:00 p.m. to 4:00 p.m.
Off-Peak:	8:00 p.m. to 7:00 a.m.

Saturdays, Sundays and holidays during December through March shall be treated as consisting of two shoulder periods, from 7:00 a.m. to 12:00 p.m. and from 4:00 p.m. to 8:00 p.m., with the remainder to be designated as off-peak. Saturdays, Sundays and holidays during April through November shall be designated as all off-peak.

Effective Date: January 1, 2023

RATE LGS-P-TOU
LARGE GENERAL SERVICE - PRIMARY - TIME-OF-USE

TRANSMISSION CHARGE

The transmission charges in accordance with Subsection 44.1 of the Terms & Conditions are included in the above rates.

EFFICIENCY MAINE TRUST ASSESSMENT CHARGE

The Efficiency Maine Trust assessment charges in accordance with Subsection 49.1 of the Terms & Conditions are included in the above rates.

REACTIVE DEMAND CHARGE

\$1.05 per kilovar (kVar) of reactive demand that exceeds the sum of 50% of the first 1,000 kW of monthly on-peak kW demand and 25% of all additional monthly on-peak kW demand.

Facilities with on-site generation, which is controlled by ISO New England or the Maine Satellite, whose only load is station service to support that generation, and where energy is delivered and received through the same interconnection point; will not be charged for reactive demand that is delivered by the Company while energy is flowing from the customer's facilities to CMP's system.

In addition, facilities that have inverter-based on-site generation and supply or absorb reactive power to meet ISO New England requirements or absorb reactive power to meet Chapter 324 (Small Generator Interconnection Procedures) requirements for interconnection will not be charged for reactive demand when absorbing reactive power to regulate voltage or power factor consistent with ISO New England and MPUC Chapter 324 requirements.

MINIMUM CHARGE

The Service Charge, plus the Demand Charge, plus the Reactive Demand Charge, per month.

METERING

If metering facilities are required for time-of-use service which are in addition to, or in substitution of, the standard facilities which the Company would normally install to provide regular service, they shall be provided by the Company and the customer will be subject to an additional monthly charge in accordance with Section 13 of the Terms & Conditions.

CONTRACT

1. A contract shall be required for customers with loads of 2,000 kW or larger.
2. The contract shall specify the delivery point and voltage, phase characteristics, maximum available kVa capacity, billing criteria under the applicable rate(s), and any special conditions associated with the facilities providing the service.

Effective Date: July 1, 2022
